- 1 dose of meningococcal conjugate vaccine (MVV).

- 2. Physical Examination:** The School Health Law requires medical examinations for children on entrance to school and in grades 6 and 11. These grades were selected because they represent critical periods of growth and development in a child's life. It is important that the school have a record of the child's health status. This knowledge enables the school staff to help children achieve the maximum benefit of their educational opportunities.

It is recommended that these examinations be done by your family physician since they can best evaluate your child's health and assist you in obtaining necessary treatments and corrections, if needed. Please return the completed form as soon as possible to the School Nurse.
